

Hi-LED 55

Seamless, modular
LED video walls

Aluvision 

Our mission is imagineering. We inspire & connect partners on their creative journey to design & build modular environments.

As innovative developer & worldwide supplier of high quality modular systems for indoor & outdoor environments, Aluvision combines bold imagination with unmatched engineering and manufacturing expertise. The Aluvision frame system offers solutions for straight and curved walls, LED videowalls, hanging signs, light walls, displays & retail environments. Sustainability, reusability, precision, flexibility and modularity are the core features.

Aluvision is a first-generation manufacturing company where passion and drive are core elements. A family business started by a strong couple, Ann Vancoillie and Dirk Deleu. Aluvision tells a story of ambition, challenge and growth. We dare to dream, but at the same time we like a 'no-nonsense' approach.

Founded in Belgium in 2003, Aluvision currently employs over 120 people and services more than 3,000 partners worldwide. The company has large production facilities and inspiring showrooms in Deinze (BE) and Atlanta (USA).

Original manufacturer of the Aluvision system.

Create a powerful visual experience

Boost your presence! With Aluvision's integrated LED video walls, an extra dimension has been added to the renowned, original Aluvision frame system. The Hi-LED 55 is the most versatile tile that can be incorporated into a modular building system. Its unique dimensions of 19.53"x19.53" x2.17" (496x496x55 mm) allow a seamless integration of LED screens into the modular constructions. The combination of the Hi-LED 55 and the Aluvision frames offers a light-weight, sleek, easy-to-install, yet very solid end result. Enjoy a brilliant visual experience guaranteed by the 2.8 and 2.5 pixel pitch, CrystalView technology & premium level flatness.

Why choose Hi-LED 55?

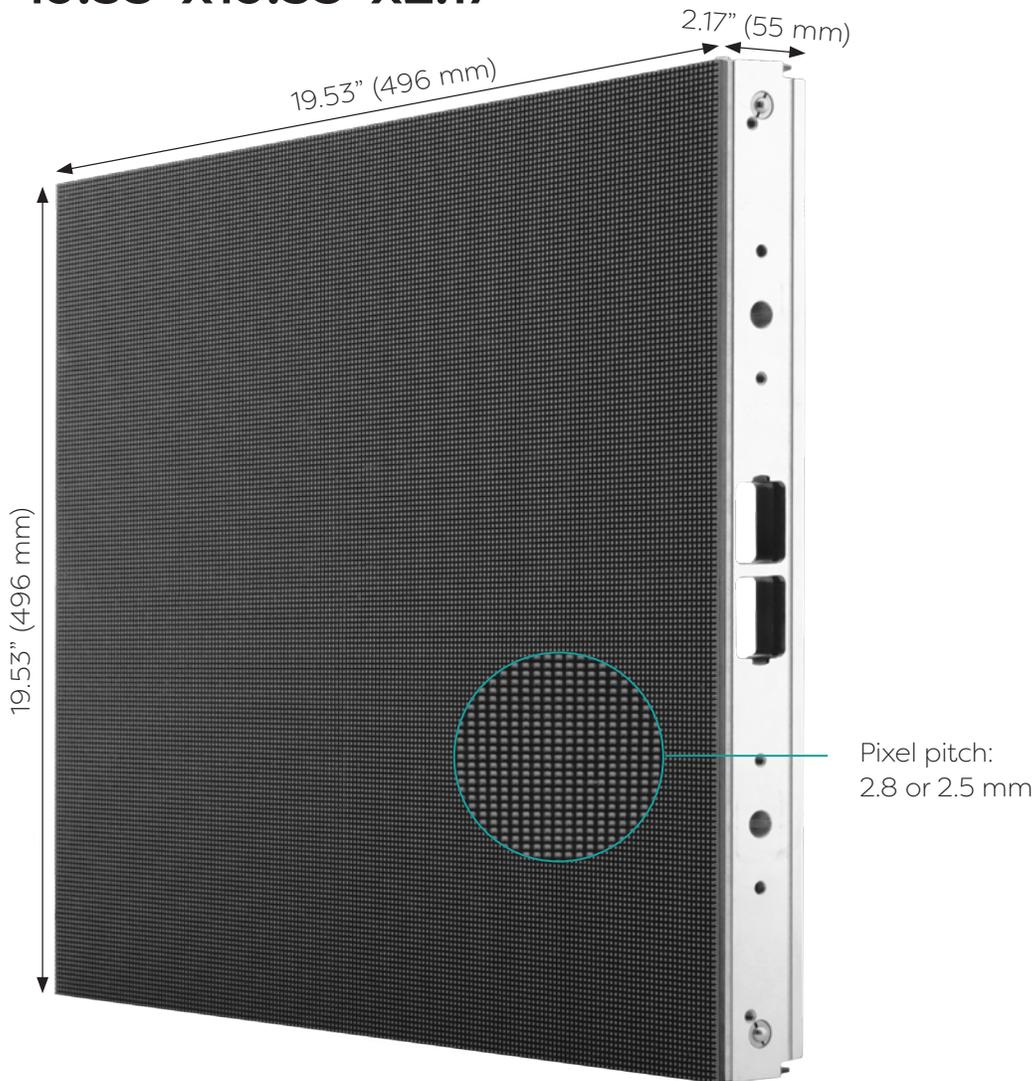

- ✓ Straight & curved LED tiles for walls, ceilings and floors
- ✓ Advanced all-in-one design
- ✓ Quick, easy and toolless installation
- ✓ Full front & rear maintenance (both LED modules and power box)
- ✓ Raised flooring system
- ✓ One tile, endless solutions: Hi-LED 55+
- ✓ Specially developed flight cases for secure transportation
- ✓ Endless possibilities for assembly, including concave/convex mounting

Straight tiles

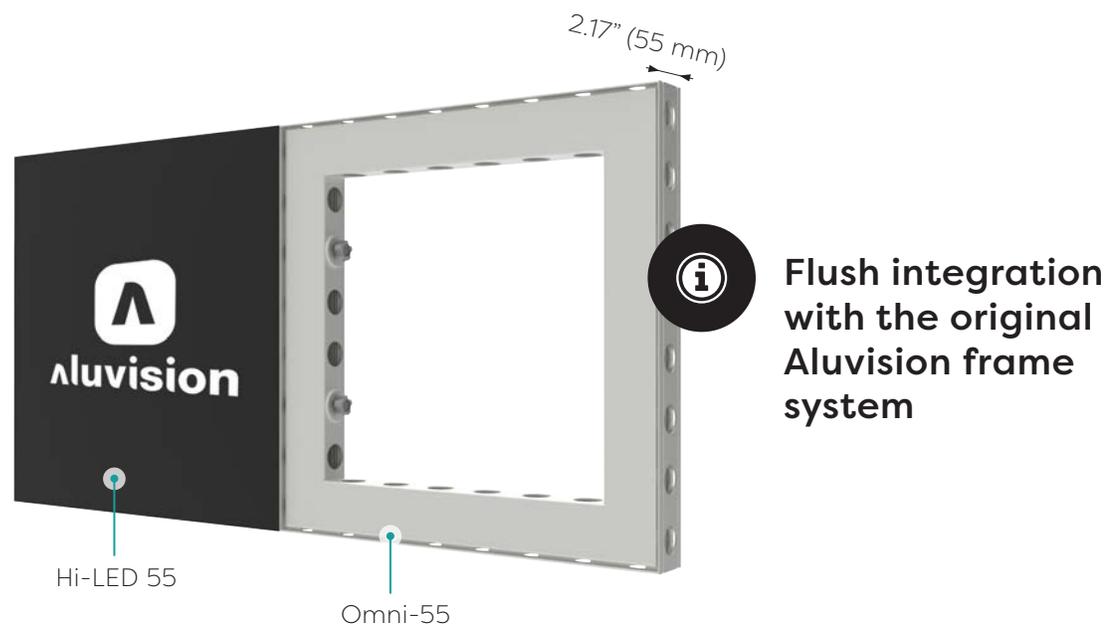

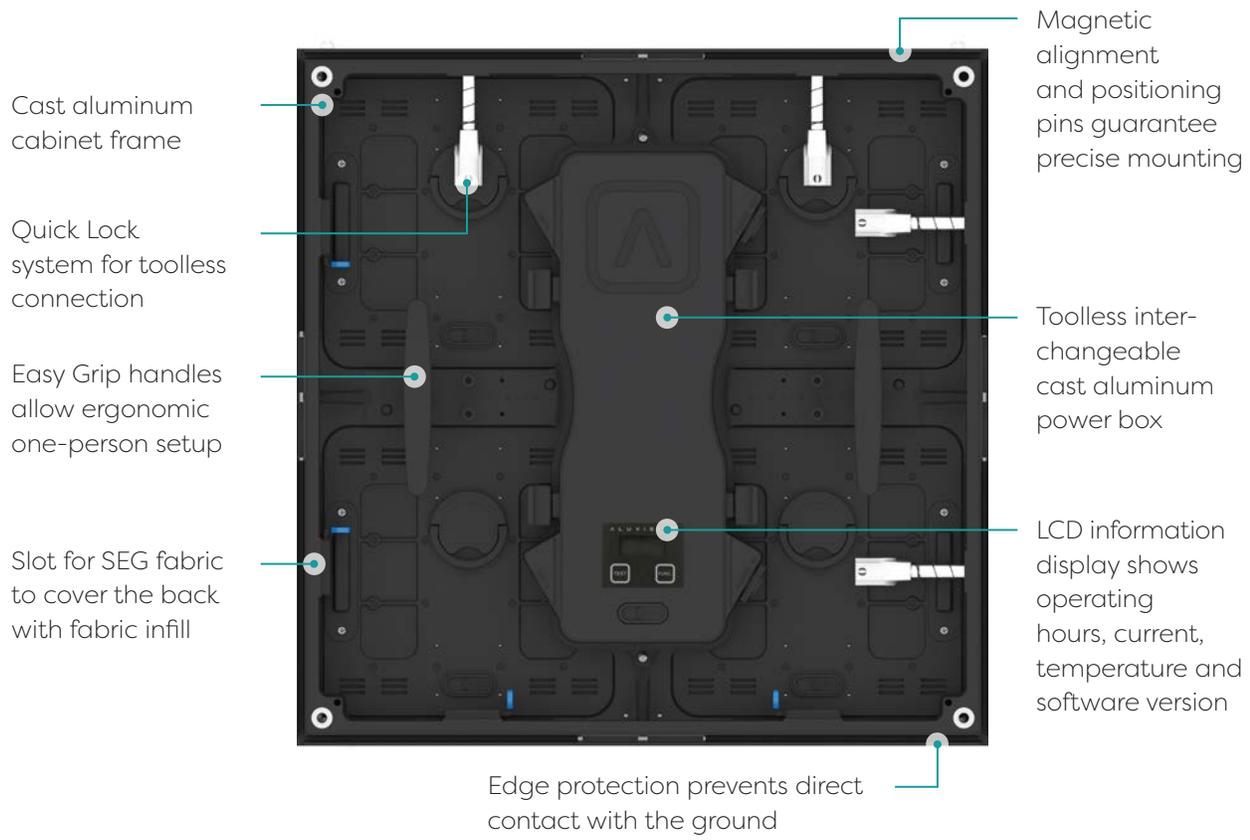

The most versatile LED tile available for seamless integration in a modular system. The patented, matte black click mask and black faced LEDs guarantee optimal contrast, ensuring vivid, crisp images and a supreme image quality.

**Unique dimensions:
19.53"x19.53"x2.17"**

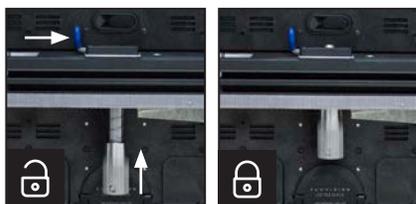

Advanced all-in-one design

Quick and easy installation

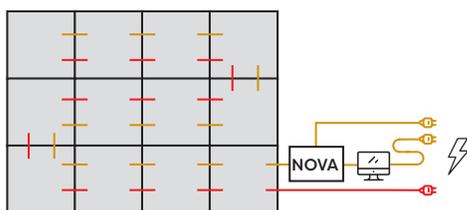

- 1 Magnetic alignment & positioning pins ensure **precise mounting**
- 2 **Easy Grip handles** allow ergonomic one-person setup
- 3 Outdoor-ready and interchangeable **power box**
- 4 **Quick Lock system** for toolless fixation

- 5 **Effortless wiring** with silicone rubber Super Flex power cable

— signal/data — power

Hi-LED 55 chain

- **Signal/data cable:** connect up to 20 cabinets (2.8) / 17 cabinets (2.5) by using 1 data cable
- **Power cable:** connect up to 9 cabinets (pixel pitch 2.8- 110V) or 8 cabinets (pixel pitch 2.5 - 110V) by using 1 cable
- Both cables are **outdoor-ready**

Magnetic alignment

Positioning pin

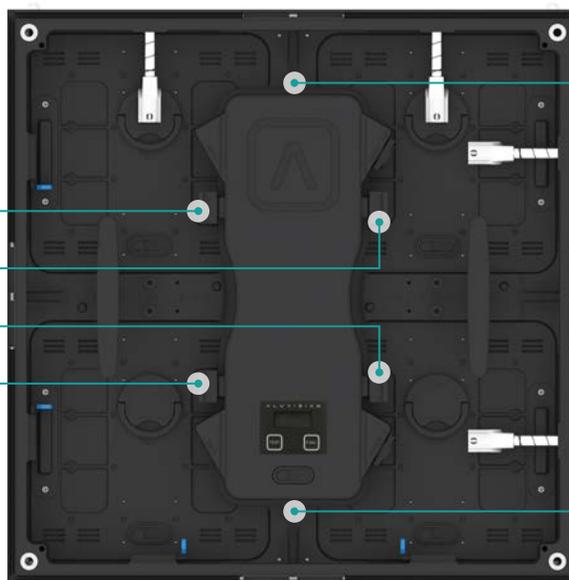

Full front and rear maintenance

Front and rear access to interchangeable power box and LED modules

Toolless tighteners for quick and easy attachment of the power box

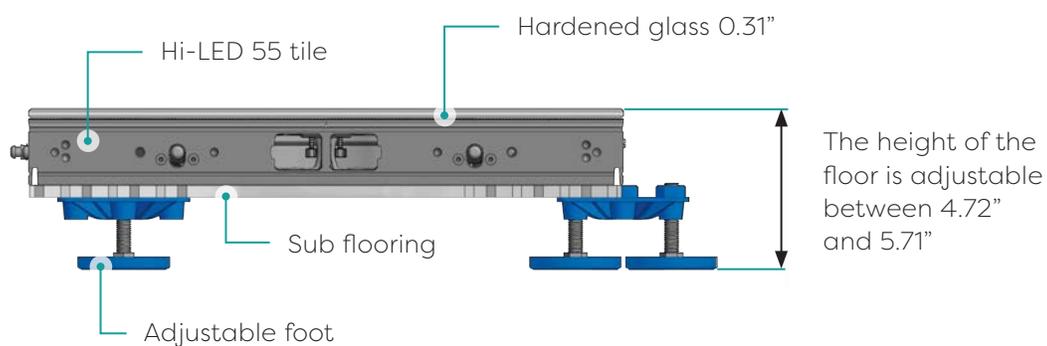

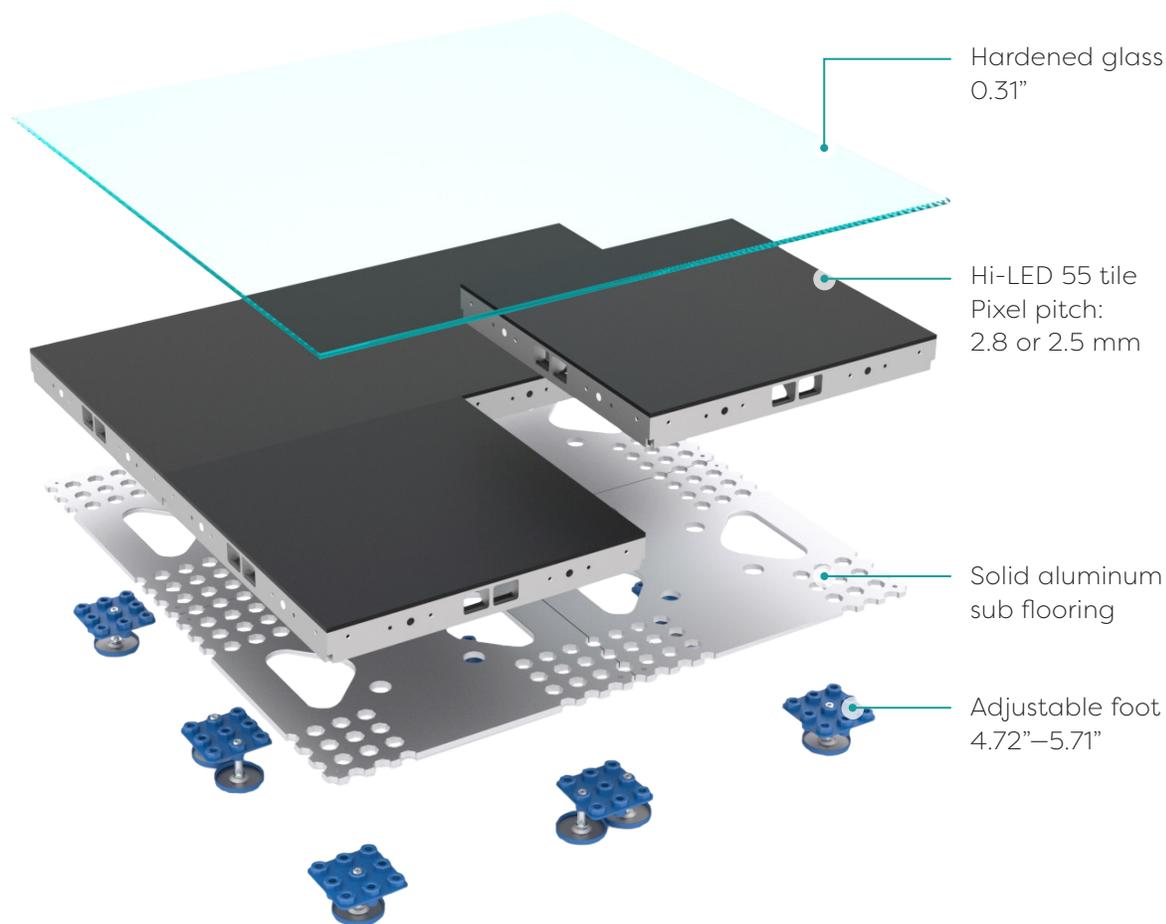

Positioning pins

Raised flooring system

Hi-LED 55 for floors

The height of the floor is adjustable between 4.72" and 5.71"

One tile, endless solutions

Award-winning Hi-LED 55+

- Pitch 2.8 or 2.5 mm
- All modules have 4 chamfered sides
- Modules are compatible with Hi-LED 55
- Patented

Transform the most versatile LED tile into 5 different configurations

1

Straight tile

This is where it all begins. A convertible LED tile, fully compatible with the Aluvision frame system and Hi-LED 55.

2

Corner

Let's get the magic started & convert two tiles into a seamless 90° corner.

3

3D corner

Let's add a little extra, and create a 3D corner. Don't forget, all of this with just one building block.

4

Cube

Let's go all the way and create a cube. This tile is able to seamlessly finish up to 6 sides. Combine more Hi-LED 55+ tiles to create different sizes.

5

Concave & convex

Let's create waves, curved walls, or any curved construction. Just go wild!

A quick how to ...

1 Remove

Disconnect one side of the aluminum cast of each tile.

2 Choose

Corners or curves? Add a 90° connector piece to one of the tiles to create a perfect corner or add a connector piece of -5° or -7.5° to create convex walls.

3 Connect

It's easy as 1-2-3. A quick, easy and toolless installation.

4 Impress

A seamless 90° corner to create a new and powerful visual experience.

Secure transportation

Stackable flight case for 10 LED tiles & accessories

Save space and effort with practical tipping wheels

↗ Size: 46.89"x23.03"x30.03"
↖ (LxWxH)

🛒 Gross weight 2.8: 337.31 lb
Gross weight 2.5: 365.53 lb
Net weight: 121.25 lb

Hi-LED 55 module packaging box.
Can hold 12 spare modules

↗ Size: 23.62"x15.75"x12.60"
↖ (LxWxH)

🛒 Net weight: 9.55 lb

Protective cover included with every LED tile

Endless options for assembly

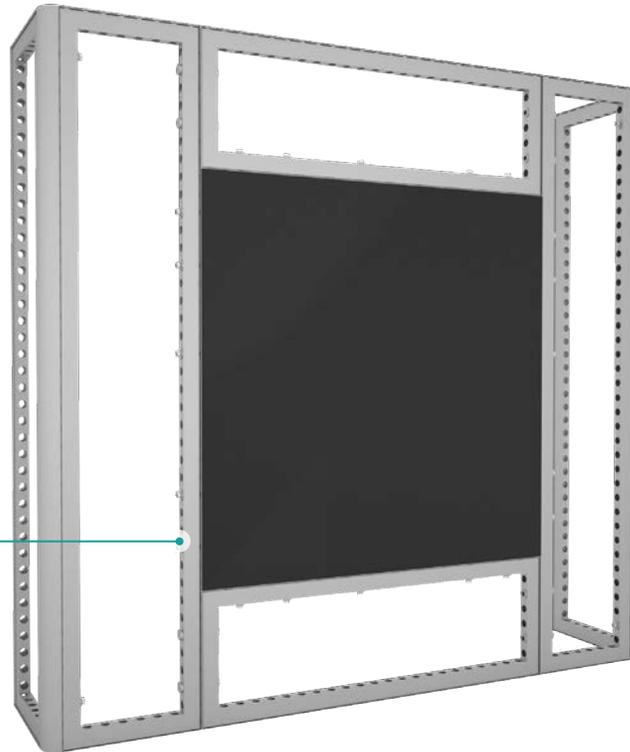

In line

Flush integration of the video wall. Fasten with standard quick tighteners LS M6/D1.18"*3.15"

Quick tightener LS M6/D1.18"*3.15"

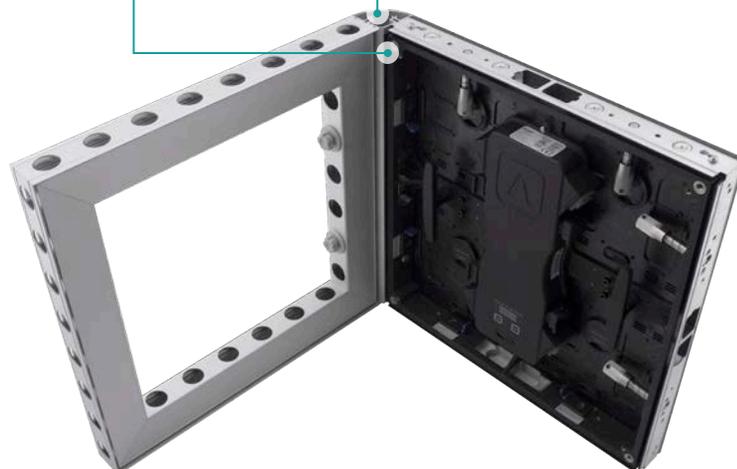

Quick tightener M6*1.18"

C90-corner, also available in black

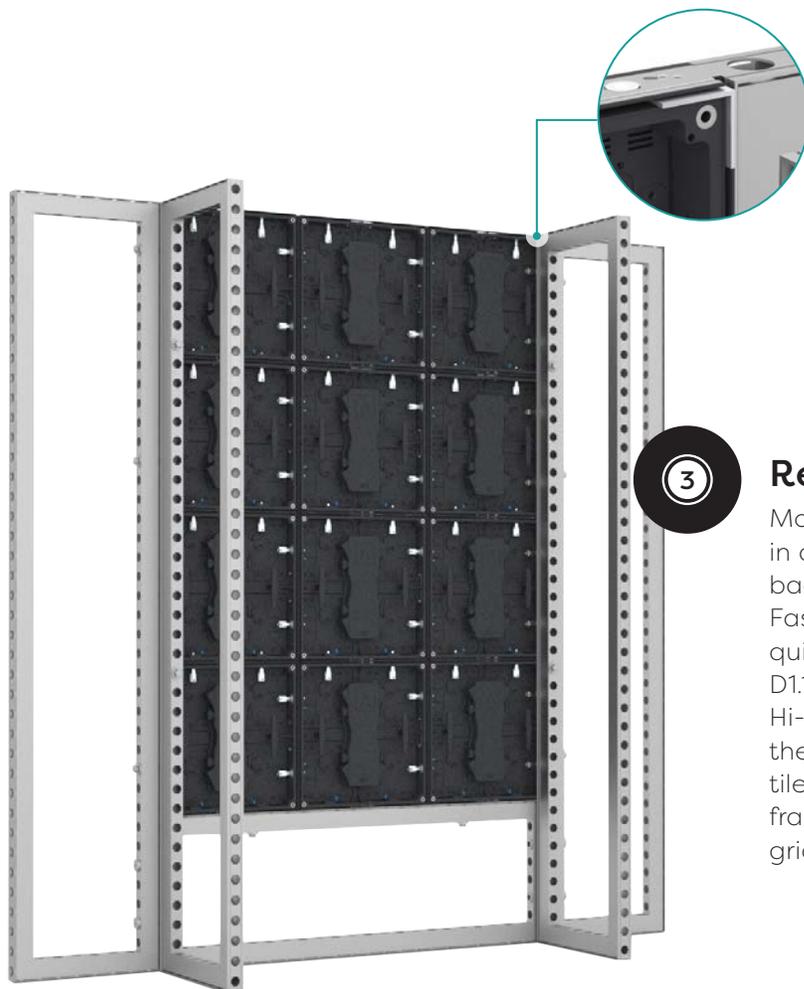

Corner

Compatible with all Aluvision corner profiles. Fasten with standard quick tighteners M6*1.18".

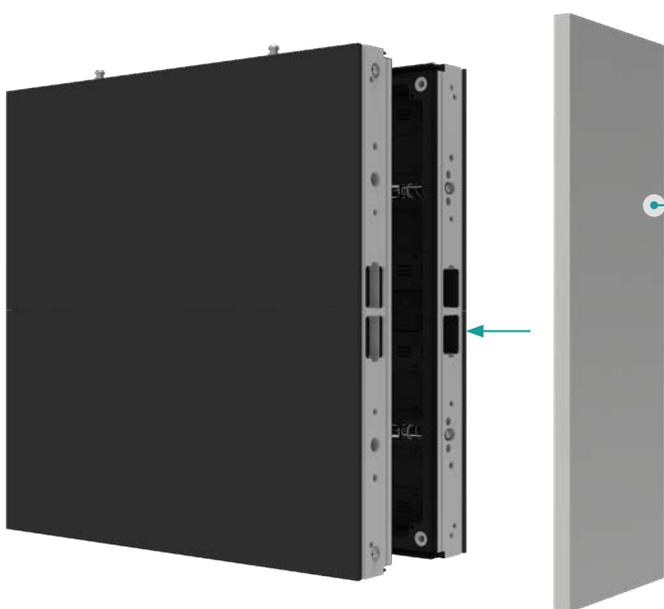

Hi-LED 55 X spacer

3

Rear support

Mount support frames in a 90° position to the back of the video wall. Fasten with standard quick tighteners LS M6/ D1.18”*3.15”. Place the Hi-LED 55 X Spacers in the corners of your LED tiles to keep the support frames in our modular grid.

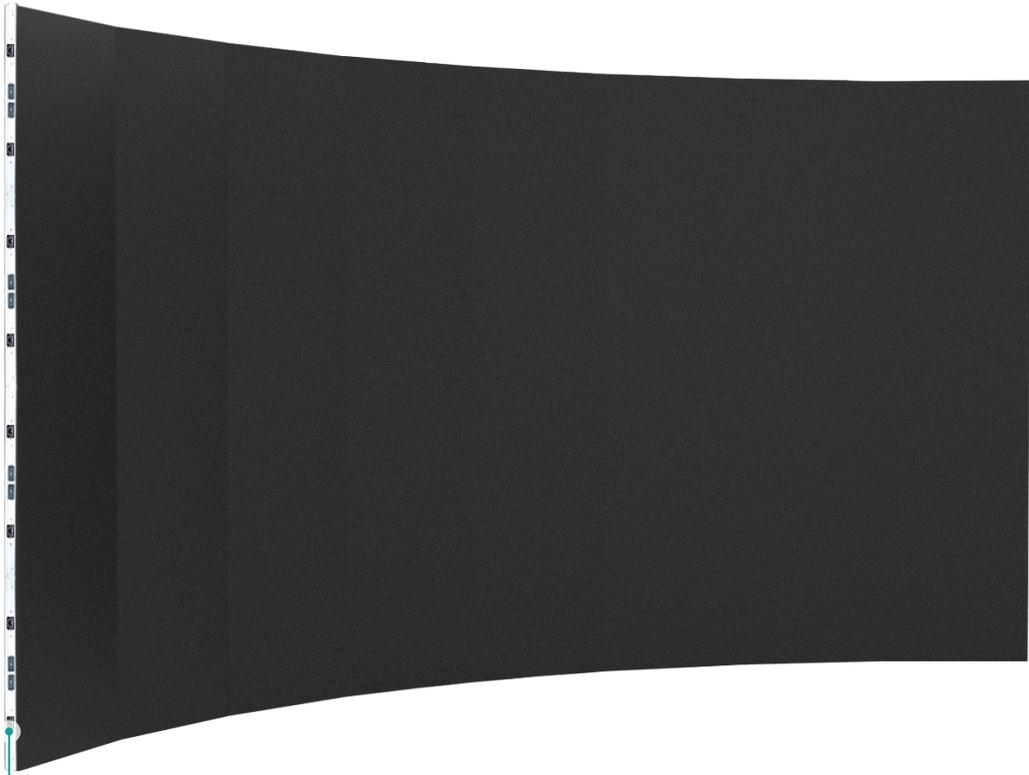

Omni-186 cover, also available in black

4

Back-to-back

Flawless finish with Omni-186 cover or Omni-248 cover. Fasten with standard quick tighteners M6*1.18”.

Curved

Use standard straight Hi-LED 55 tiles in combination with colour-coded wedges to create a concave wall.

5°= R 18.6'
White wedge

7.5°= R 12.4'
Grey wedge

10°= R 9.3'
Black wedge

6

Suspended

Rigging bar for suspended wall & signage constructions; fixation with standard Quick Lock system.

↙ ↗ Standard lengths: 19.53", 39.05", 58.58" and 78.11"

🧲 Magnetic connection for an easy positioning onto the hanging beam

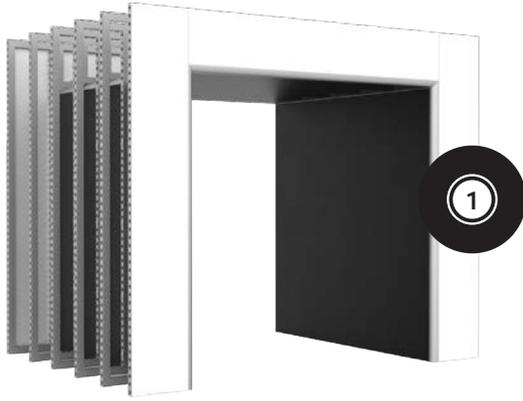

Extra opening for cable management

Extra opening to attach an Omni-55 frame

Hanging beam used for ceiling constructions (hanging + reinforcement)
